

BANDTRANSPORT EUROPE

CREATORS OF CONVEYOR BELTS

DUTCH QUALITY CONVEYOR BELTS

PREFACE

Bandtransport Europe stands for quality and durability with a high level of service and commitment. We supply the products that help our customers set themselves apart from their competitors.

As you have grown accustomed to through the years, we manufacture your conveyor belts with great enthusiasm and expertise. All our work is carried out with due care and attention, in accordance with international standards for quality and durability. This way we offer a consistent and reliable quality.

More and more customers experience our professionalism and market-oriented approach. Thanks to our extensive product range and customisation options, we are able to manufacture any conveyor belt, specifically geared to your application.

Jeroen Al
Managing Director

HISTORY

1983

Formation of Bandtransport Zaanstreek (BTZ) as a mass-producing company for synthetic conveyor belts.

1996

BTZ is taken over by the American company Fabreeka and the name changes to Fabreeka Bandtransport B.V.

2010

Halfway 2010, the operations of Fabreeka Bandtransport B.V. become independent through a management buy-out and the name is changed to its current name of Bandtransport Europe B.V. (BTE).

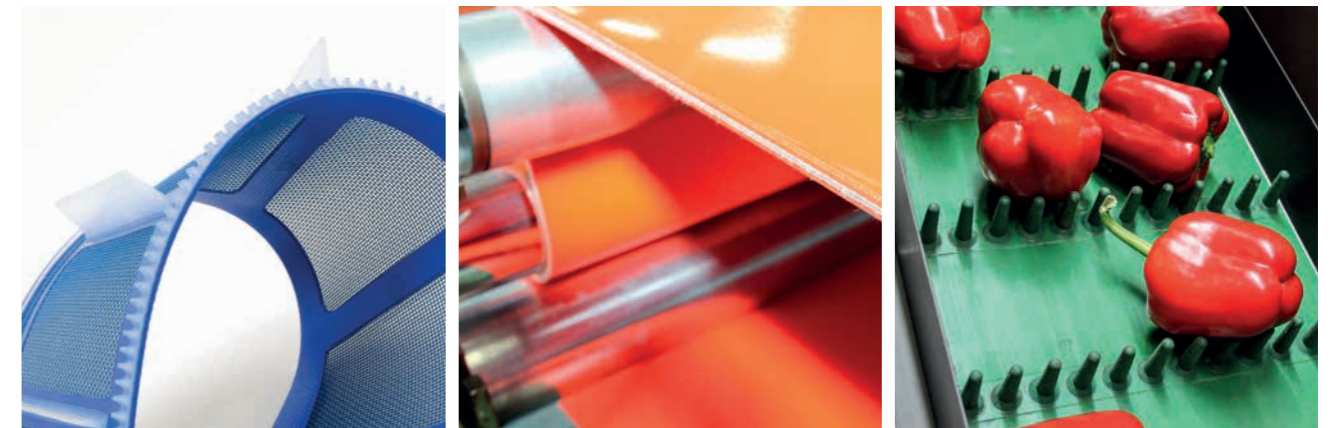

EARLY 1990s

In addition to the assembly of synthetic conveyor belts, the company now also starts manufacturing them. BTZ relocates to its current location in Uitgeest, the Netherlands.

2007

Takeover by the renowned Dutch conveyor belt manufacturer Derco B.V.

CORE VALUES

QUALITY AND SUSTAINABILITY

All our work is carried out with extreme care and in accordance with the international standard for quality and sustainability. The system is based on the ISO 9001, ISO 14001 and the OSHAS 18001 standards. This enables us to offer a consistent and reliable quality.

TAILORED DEVELOPMENT

Bandtransport Europe likes to think along with your growth and development process. We develop the right belt for every application and can draw from a standard product range of more than 2,000 belt types. Together with the many additional options, we are sure to offer you the belt that suits you best.

In addition, thanks to the fact that we developed our own machinery over the years, we are able to perform any possible customisation in-house. With that, we effortlessly install every feasible conveyor belt accessory, all this with the necessary precision.

FLEXIBLE

In our industry, Bandtransport Europe is second to none in terms of making quick switches and continuously meeting the customers' changes in demand. This flexibility keeps us on our toes and up-to-date, allowing us to supply every customer with the right conveyor belt.

FAST AND RELIABLE DELIVERY

You do not have time to wait, because downtime costs money. Hence we keep our delivery times as short and as realistic as possible. This is made possible by combining a flexible working environment with proper structuring of our work. Therefore, an agreement with us is one you can rely on.

WHAT SETS US APART

DUTCH QUALITY

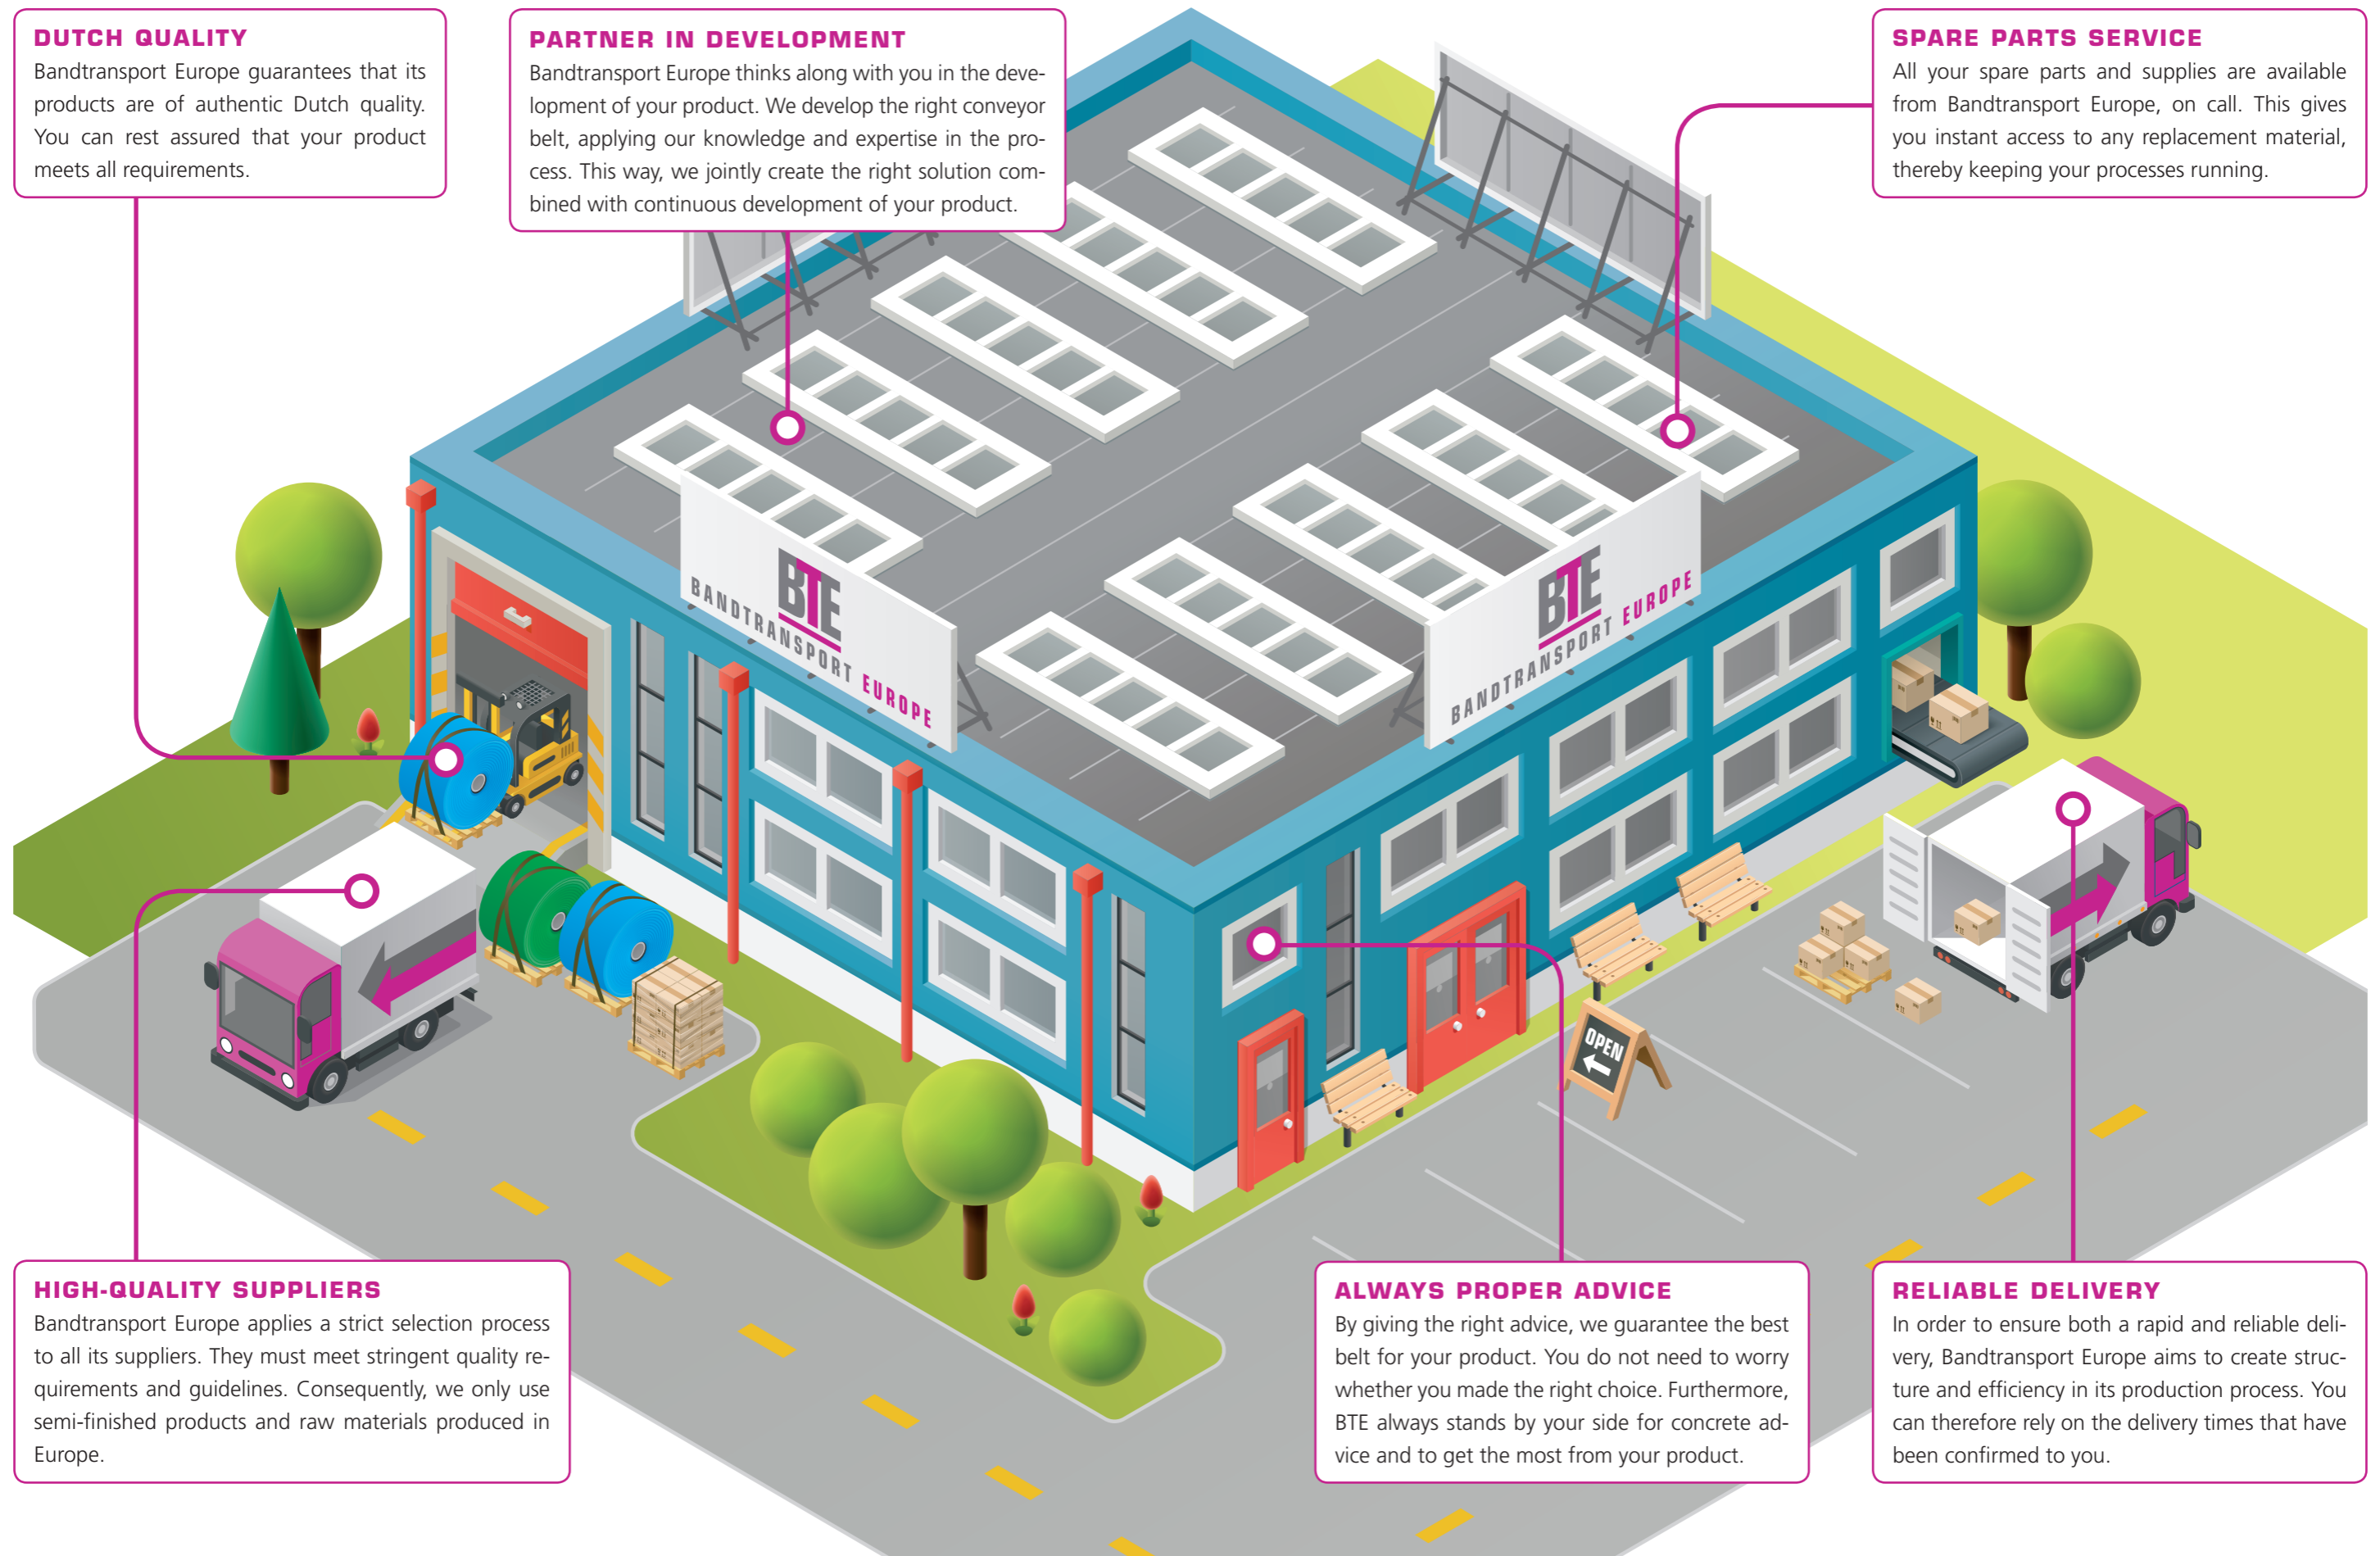

Bandtransport Europe guarantees that its products are of authentic Dutch quality. You can rest assured that your product meets all requirements.

PARTNER IN DEVELOPMENT

Bandtransport Europe thinks along with you in the development of your product. We develop the right conveyor belt, applying our knowledge and expertise in the process. This way, we jointly create the right solution combined with continuous development of your product.

SPARE PARTS SERVICE

All your spare parts and supplies are available from Bandtransport Europe, on call. This gives you instant access to any replacement material, thereby keeping your processes running.

HIGH-QUALITY SUPPLIERS

Bandtransport Europe applies a strict selection process to all its suppliers. They must meet stringent quality requirements and guidelines. Consequently, we only use semi-finished products and raw materials produced in Europe.

ALWAYS PROPER ADVICE

By giving the right advice, we guarantee the best belt for your product. You do not need to worry whether you made the right choice. Furthermore, BTE always stands by your side for concrete advice and to get the most from your product.

RELIABLE DELIVERY

In order to ensure both a rapid and reliable delivery, Bandtransport Europe aims to create structure and efficiency in its production process. You can therefore rely on the delivery times that have been confirmed to you.

DUTCH QUALITY

In order to guarantee you our consistent and high quality, we work exclusively with European suppliers, the vast majority of which from the Netherlands. This guarantees the high level of quality in our manufacturing processes, the type of quality you have come to expect from Dutch products.

To emphasise this, all our conveyor belts come with a Dutch Quality certificate. Immediately after the quality check, this certificate is signed by the quality inspector, so that you can rest assured that your conveyor belt meets the quality requirements Dutch products are known for.

CORPORATE SOCIAL RESPONSIBILITY

SUSTAINABLE MATERIALS

For the production of our conveyor belts and accessories, we exclusively use high-quality raw materials and semi-finished products. In addition, we examine the working conditions in the supply chains.

PROLONGING THE SERVICE LIFE OF PRODUCTS

Thanks to developments in production and advice, we manage to continuously extend the service life of our belts. As a result, not only do we create value economically, but also ecologically and socially.

LEAN MANUFACTURING

Increasing the sustainability of our business processes is an ongoing effort. An efficient production process combined with an energy-efficient approach reduces our overall emissions.

WASTE MANAGEMENT

Bandtransport Europe carefully traces its waste streams after they have left our site in Uitgeest, the Netherlands. Not only do we ensure that waste is separated and discharged correctly, we also monitor the further processing thereof.

OUR EMPLOYEES

Our ambition is to be the best. We want to use our flexibility, knowledge and skills to provide every customer with the best possible advice.

To keep our expertise and services at a high quality level, we offer our employees a platform for development. By investing in training and education and as such in developing the right skills, we ensure that everyone achieves their full potential, thereby guaranteeing you the best possible service.
